DESCRIPTION

As of today, NS1 venue library first release features 416 venues across 63 countries. Files are in .nxv format compressed in a single .zip file, and eventually include architectural drawings (plane views, cross sections, pictures). It is available on NEXO website www.nexo-sa.com as well as on NEXO technical cloud www.nexo-sa.com/cloud

A NS1 Venue File Submission section has been created on NEXO website, we appreciate your support in complementing this library for the benefit of all NEXO users worldwide.
