## Multi-channel, networkable plug & play amplification and processing for NEXO installed sound systems

**Available in standard and Dante-equipped versions, the 4-channel nanoNXAMP4 combined amplification and processing solution significantly reduces the cost of NEXO sound systems for retail, hospitality, houses of worship and corporate installations, without compromising the sound quality.**

Ultra-low distortion and highly reliable Class D amplification delivers 4 x 250W, providing the same acclaimed sound quality and sonic signature as NEXO's larger NXAMPMK2 TD Controllers. Processing uses FIR filtering for precise system EQ and linear phase compatibility, with presets available for an edited range of speakers drawn exclusively from NEXO's popular ID and ePS Series.

With a universal mains voltage range of 100 to 240 Volts, on-board mixer and matrix functions further reduce the overall cost of smaller installations. Wall remote controls are available and can be configured to allow users to select sources and control volume.

# Comprehensive connectivity

## Versatile and scalable

4x balanced/unbalanced analogue inputs essentially provide a 'double connectivity' which eases integration of the nanoNXAMP4. Balanced inputs can accommodate a dynamic microphone or professional mixer, while unbalanced inputs are perfect to connect a Bluetooth receiver, audio streamer or a computer audio output. The nanoNXAMP4 even includes a ducking and priority function to lower background music while the microphone is in use.

Also on the rear panel, an SPDIF In/Out can be used either as a digital input or to easily distribute a stereo signal across multiple nanoNXAMP4 units. For example, the first nanoNXAMP4-D (Dante version) can connect to the various sound sources in the role of an input matrix, then a fully digital stereo mix can be shared among multiple units simply by daisy chaining the SPDIF In/Out, keeping a full digital chain.

And a GPIO port adds additional facilities for an analogue volume control and a 12V trigger In / Out.

The nanoNXAMP4 is compatible with NEXO's NeMo remote control and monitoring tools for networked NEXO Powered TD Controllers, and industry-standard third party remote control protocols.

## Rear panel connections

All trademarks are the property of their respective owners.

# An intuitive web-based GUI for system design and set up

Configure and control systems from your laptop or smartphone without the need to install proprietary software

On-board mixer and matrix functions further reduce the overall cost of smaller installations, with set up and remote control enabled by an embedded web page that can be accessed via Ethernet or Wi-Fi.

Intuitive control is provided over a wide range of parameters including Inputs, Areas, Output Routing, NEXO Speaker Processing Presets, Delays and System Information.

Existing NEXO amplification and processing solution

## Space saving

The nanoNXAMP4 occupies just half a rack width and 1U height, increasing channel density. The integrated DSP offers a true 4x In / 4x Out architecture with optional Dante connectivity, all without the need of external processing, leading to significant space-savings over existing NEXO amplifier solutions while also saving cost and reducing cabling.

## Energy saving

The nanoNXAMP4 doesn't just save money and rack space, it also saves energy, with a sophisticated series of intelligent standby modes helping to achieve a class-leading Energy Star rating.

nanoNXAMP4 Scalable, cost-efficient installed sound solutions

ID14-I

## Retail

Available in black, white and custom RAL colours, NEXO's ultra-compact ID14-I blends seamlessly into prestigious retail environments, delivering dynamic, full range sound with bass extension from an equally compact 8-inch sub.

Up to 2 x ID14-I can be powered by each channel of the nanoNXAMP, with 2 channels to power the subs. Input sources connect directly to the amplifier and can be selected with the wall-mounting remote, which also controls volume.

## Suggested system for retail installations

nanoNXAMP4 Scalable, cost-efficient installed sound solutions

# Restaurants

Also available in black, white and custom RAL colours, and using an innovative V-formation of drivers, the ID24-I features a unique, rotatable horn which can be easily accessed by the system designer to ensure seamless coverage of dining, bar and reception spaces.

Up to 2 x ID24-I can be powered by each channel of the nanoNXAMP. Input sources connect directly to the amplifier and can be selected with wall-mounting remotes, which also control volume.

## Suggested system for restaurant installations

ePS8

# Bars

The ePS builds on NEXO's industry-standard PS platform to create a 'no frills' range of point source installation loudspeakers, perfect for use in bars on everything from ambient music to DJ sets.

1 x ePS8 can be powered by each channel of the nanoNXAMP, with 2 channels bridged to power the eLS400 subs. Input sources connect directly to the amplifier and can be selected with the wall-mounting remote, which also controls volume.

## Suggested system for bar installations

ID84-I

# Houses of Worship

Available in black, white and custom RAL colours, the ID84-I uses eight 4-inch drivers and an array of dome tweeters on a curved baffle to deliver a 'hi-fi' performance that has come to redefine the column loudspeaker.

A popular choice in Houses of Worship where a line array might be impractical, one ID84-I can be powered by each channel of the nanoNXAMP, with additional channels required for the similarly proportioned ID84-L-I LF extension modules.

## Suggested system for HOW installations

nanoNXAMP4 Scalable, cost-efficient installed sound solutions

# Hotels, Education and Corporate Expanded Systems

With a shared sonic signature and linear phase compatible pre-sets, smaller nanoNXAMP4-D systems can be integrated with larger NXAMPmk2-powered configurations to create sophisticated, multi-zones, Dante-networked systems.

# nanoNXAMP4 Specifications

| POWER SPECIFICATIONS FOR nanoNXAMP4                                   |  |
|---|--|
| Number of channels  | 4 x amplifiers channels, 2 by 2 bridgeable   |
| Max. output power (4 channels mode /4 Ohms load per channel)          | 4 x 250 Watts  |
| Max. output power (4 channels mode /8 Ohms load per channel)          | 4 x 200 Watts  |
| Max. output power (4 channels mode /2 Ohms load per channel)          | 4 x 250 Watts  |
| Max. output power (2 channels mode /8 Ohms load per bridged channels) | 2 x 200 Watts  |
| Max. output power (2 channels mode /4 Ohms load per bridged channels) | 2 x 350 Watts  |
| Power consumption (Idle)  | 20 Watts   |
| Power consumption (Standby)   | <2 Watts   |
| Power consumption (Standby without network)                           | <0.5 Watts   |
| INPUT TO POWER OUT SPECIFICATIONS                                     |  |
| Frequency response  | +0/-0.25 dB from 20 Hz to 20 kHz   |
| Input impedance / Input Sensitivity                                   | 20 KΩ / +13 dBu  |
| Dynamic range / TDH + N   | >106 dB A-weighted / <0.05% on a flat setup  |
| Latency   | 1 ms on a flat setup   |
| Audio AD and DA Converters  | 24 bits @ 48 kHz   |
| Processing  | 64 bits processing DSPs  |
| BACK PANEL FEATURES   |  |
| Analog audio inputs   | 4 x balanced analogue inputs on Euroblock 3.5 mm pitch or unbalanced on RCA            |
| Power outputs   | 4 x Euroblock 5 mm pitch outputs   |
| Digital audio input/output  | 1 x SPDIF 2ch input/output on RCA + 1 x Dante™ 4ch input (nanoNXAMP4-D only)           |
| GPIO port   | 1 x Euroblock 3.5 mm pitch with 4x Global purpose Inputs and 1 x Global purpose Output |
| Network inputs  | 1 x 100 Mb Ethernet port (Remote control)  |
| Mains sockets   | 1 x IEC C14 socket   |
| FRONT PANNEL AND REMOTE CONTROL                                       |  |
| Front panel LEDs  | 5 x LEDs (WiFi / Network / Output / Input / Status)                                    |
| Remote control  | Through 100 Mb Ethernet port or through integrated WiFi (Access Point or client)       |
| MAINS REQUIREMENTS  |  |
| Mains voltage   | Universal Power Supply with Active PFC 100 - 240 Volts (50/60 Hz)                      |
| Power consumption 1/8 max. 4 Ohms                                     | 250 Watts  |
| DIMENSIONS AND CERTIFICATIONS   |  |
| Dimensions and weight   | 1U, 1/2 19" Rack, 44.5 x 220 x 296 mm (1.75 x 8.66 x 11.65"), 2.8 kg (6.2 lbs)         |
| Electrical safety certification                                       | IEC62368-1 2nd edition and UL62368-1   |
| EMC certification   | FCC Part 15 Class B, CAN/CSA-CISPR 22-10, EN55032/CISPR32, EN61000                     |
| Green status  | Compliant with ROHS & Reach directive  |

# NEXO loudspeaker systems supported by nanoNXAMP4 and nanoNXAMP4-D

| Speaker | Maximum Per Channel   |
|---------|-----------------------|
| ID14    | 2                     |
| IDS108  | 1                     |
| ID24    | 2                     |
| ID84    | 1                     |
| ID84    | 1                     |
| ePS6    | 1                     |
| ePS8    | 1                     |
| ePS10   | 1                     |
| IDS110  | 1 per bridged channel |
| eLS400  | 1 per bridged channel |
