Weight: 0.9 kg / 1.98 lb

- Read this document before using.
- Keep this document.
- Observe all warnings and cautions.
Implementation:

<table>
<thead>
<tr>
<th>QRA can be moved in two different positions on the 5 locations.</th>
<th>You can find 5 locations, 2 to use horizontally and 3 vertically.</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1.png" alt="Diagram of QRA movement" /></td>
<td><img src="image2.png" alt="Diagram of QRA positions" /></td>
</tr>
<tr>
<td>Insert QRA and push until the locking device locks automatically.</td>
<td>Pull up the locking device, and push QRA to remove it.</td>
</tr>
</tbody>
</table>

- Read this document before using.
- Keep this document.
- Observe all warnings and cautions.
Use:

- Use the levers to lock on ID24
- Loosen the wing nut to adjust the angle (-45° to +45°)

- Never exceed the Safe Working Load (SWL) shown on the clamp.
- Only use the clamp within the designed tube parameters (38-51mm).
- All clamps should be visually inspected before use. In the event of any damage, the clamp should be taken out of service and returned to an ‘Approved NEXO Service Agent’ for inspection.
- When used in conjunction with other accessories, care must be taken to ensure that the minimum SWL of any components is not exceeded.
- All open clamps including hook clamps should be used in a vertical orientation only.

- Read this document before using.
- Keep this document.
- Observe all warnings and cautions.
### Warning:

<table>
<thead>
<tr>
<th>Negative inclination: locking device towards the front of the cabinet.</th>
<th>Positive inclination: locking device towards the back of the cabinet.</th>
</tr>
</thead>
</table>
