User manual
EU Conformity declaration

We, NEXO SA
ZA DU PRE DE LA DAME JEANNE
60128 PLAILLY – France

Declare under our sole responsibility that the product
Type Loudspeaker
Serial number L15

Is in conformity with the provisions of the following directive including all applicable amendments:
2014/35/UE (Low Voltage Directive)

Applied rules and standards:
EN 13155, EN 62368

Plailly, June 12th, 2019
Joseph CARCOPINO, R&D Director
WARNINGS

PRECAUTIONS

Do not open the speaker, do not try to disassemble it neither to modify it in any way. The system doesn’t include any user-repairable part.

If the system seems to be malfunctioning or damaged, stop using it at once and have it repaired by a NEXO qualified technician.

Do not expose the system directly to the sun or to the rain, do not immerse it into fluids, do not place objects filled with liquid on the system. If a liquid gets into the system, please have it inspected by a NEXO qualified technician.

The connection should be performed by qualified technician, by ensuring that power is off.

Operating temperature with temperate climate: 0°C to +40°C (+32°F to +104); -20°C à +60°C (-4°F to +140°F) for storage.

SAFETY INFORMATIONS

Read this manual before using the speaker.
Keep this manual available for further reference.
Observe all warnings and cautions.

Please check the NEXO Web site nexo-sa.com to get the most up-to-date version of this manual.

Ensure you are aware of the safety rules applying to rigging, stacking or installing on tripod or speaker stand. Failure to observe these rules may expose persons to potential wounds or even death.

Only use the system with accessories specified by NEXO.

Please always consult a NEXO-accredited technician if the installation needs architectural works and observe following precautions:

Mounting Precautions:
- Please select screws and mounting location supporting 4 times the system weight.
- Do not expose the system to excessive dust, vibrations, to extreme cold or hot temperatures, to reduce the risk of damaging components.
- Do not place the system in an unstable position: it could fall accidentally.
- If the system is used on a tripod, please ensure the tripod’s specifications are adapted and that its height does not exceed 1.40m/55”. Do not move the tripod with the system in position.

Connection and Powering Precautions:
- Unplug connected cables before moving the system.
- Power off the system before connecting the system.
- When switching on the installation, the amplifier must be powered last; when switching the installation off, shut off the amplifier first.
- If you work by cold temperatures, progressively raise the level to nominal value during the first minutes of use, to allow the system components to stabilize.

Please check regularly the system condition.

HIGH SOUND PRESSURE LEVELS

Exposure to very high sound pressure levels may cause permanent hearing losses. Degrees of hearing losses may be different from one person to another, but almost everybody will be affected if exposed to high sound pressure levels during a long period of time. The OSHA (Occupational Safety and Health Administration) American Agency specified the following maximal exposures:

<table>
<thead>
<tr>
<th>Number of Hours</th>
<th>Sound Pressure Level (dBA), Slow Response</th>

WASTE OF ELECTRIC OR ELECTRONIC EQUIPMENT

This symbol on the product or its packaging indicates that this product must not be treated as household waste. Instead, it is your responsibility to hand it over to a designated collection point for the recycling of waste electrical and electronic equipment. By ensuring your waste equipment is recycled, you will help prevent potential negative consequences for the environment and human health, which could appear if this product was not recycled. Recycling helps spare natural resources. For more information about the recycling of this product, please contact your local city office, your household waste disposal service or your reseller.
3 locations for rigging accessories, 1 on the top for speaker stand and one per side.

Assembly with pole stand or speaker stand

Fix the pole stand on the connector plate (M20) of the Sub. Mount the main cabinet on the pole stand / speaker stand (diameter of 35mm).

IMPORTANT
Speaker stand must be rated for the weight of the main cabinet. Speaker stand must always be installed on a horizontal surface. Stand height and footprint must be defined to prevent assembly from collapsing. Ensure that audience is not allowed within a safety area which radius is equal or higher than assembly height. Test steadiness of the assembly by pushing in all directions.
DESCRIPTION

→ The L15 is a compact and powerful subwoofer, ideally complementing P8/10/12 speakers.

→ Versions:
  - L15: black
  - L15-PW: white

→ The L15 subwoofer is equipped with two Speakon NL4 connectors, with parallel-wired pins,

→ L15 uses the 1+/1- pins, (2+/2- through).

→ Amplification
  - The L15 subwoofer must be used with a NEXO processor to handle EQ, phase alignment, crossover and excursion/thermal protection for the system loudspeaker.
  - The following table shows the number of P8/10/12 speakers and L15 subwoofers usable with each solution.

Please consult nexo-sa.com for NEXO TD Controllers firmware information.

There are two setting range for surrounding speaker L15:

→ "OMNI" Setups; For a traditional use of the subwoofer in omnidirectional radiation (require at least one subwoofer and a channel of amplifier).
  - Omnidirectional Main setup, with low-pass at 85 or 120 Hz.
  - Omnidirectional Monitor setup, with low-pass at 85 or 120 Hz.

→ "CARDIO" Setups; For a directional use (cardioid) of subwoofers (require at least two subwoofers and two channels of amplifier).
  - Cardioid back and front setups, with low-pass at 85 or 120 Hz.
    - Setup « FR » (Front) for the subwoofer pointed at the audience.
    - Setup « BA » (Back) for the subwoofer turned around.
  - The ideal ratio for a directional use is 2x L15 in CARDIO FRONT mode on top of 1x Reversed L15 in CARDIO BACK mode. From 1:1 to 3:1 ratio can be used.
With P8/10/12 in stage monitor

Stage monitor applications with Subs (OMNI or CARDIO modes)

With P8/10/12 in front of house

Front of house applications with Subs (OMNI or CARDIO modes)
ACCESSORIES

WARNINGS
All L15 accessories are specifically rated in agreement with structural computations. Never use other accessories – including push-pins – when assembling L15 cabinets than the ones provided by NEXO: NEXO will decline responsibility over the entire L15 accessory range if any component is purchased from different supplier. All L15 accessories have been designed so that cabinet are arrayed vertically.

PROHIBITED: L15 below L15 or P8/10/12 below L15 without dedicated accessory

LNU-HBRK15 (LNT-HBRK15)
Horizontal Cradle, use with L15, CLADAPT.

Place HBRK15 on L15, use only fasteners provided.
Tight properly.

Refer to the Product Data Sheet.

VNI-CLADAPT (PNI-CLADAPT)
Ceiling adapter, use with LNU-HBRK15.

Screw CLADAPT to the ceiling (fasteners not provided).
Place the assembly on CLADAPT, use the 2 guides. Tight with the fasteners provided with CLADAPT.

Refer to the Product Data Sheet.
LNI-3L15

L15 Rigging system (up to 3; Cardio or Omni)

Refer to the Product Data Sheet.

LNT-WB15

Wheelboard

Refer to the Product Data Sheet.

LNT-COV15: COVER FOR L15 ON WHEELBOARD

LNT-2CASE15: FLIGHT CASE FOR 2X L15
The ArrayEQ allows to adjust the system frequency response in its lower range (see curves below, with different ArrayEq values):
Grille Changing:
Remove 8 screws, tightening torque: 3.5 Nm (Thread Locker: Loctite 242)

15" Driver
Remove 20 screws
Remove the trap
Remove 8 screws.
Remove the driver.
Tightening torque: 3.5 Nm (Thread Locker: Loctite 242)
MAINTENANCE

Place 8 screws.
Tightening torque: 3.0 Nm (Thread Locker: Loctite 242)

Follow the sequence below to tight the screw. Place and tight the 12 others screws.
