Installation speaker, 2 way passive, with high excursion 8" LF and 1.4" diaphragm HF.

The ePS8 speaker is a highly powerful installation-dedicated point source.

ePS8 main features

- High power (128 dB peak) point source dedicated to fixed installation markets, with or without its companion subs, the eLS400 and the eLS600.
- Lightweight (8.1 kg / 17.9 lbs) design using robust 15 mm Birch plywood enclosure.
- NEXO’s Asymmetrical Dispersion Constant Directivity horn design (“PS” Horn), rotatable.
- IP54 protection level.
- Comprehensive range of versatile, accessories for deploying the ePS8 in a wide variety of fixed installation applications.

NEXO has always been well-known for its compact and very powerful versatile point source speakers, notably the worldwide reference PS Series.

This expertise is now applied to the ePS8, featuring a high excursion neodymium 8” speaker coupled with a 1.4” diaphragm compression driver, in a slick and discrete design.

Advanced NEXO technology included

The ePS8 enclosure uses a 15 mm birch plywood shell. The result is a robust lightweight cabinet with exceptionally good sound quality. IP54 protection level is reached.

Its bass reflex acoustic design offers a very clean and deep low end response even at high levels.

The high excursion 8” LF driver uses a 2” voice coil while the HF compression driver has a 1.4” diaphragm, both ensuring a high peak output level.

The heart of the ePS8 is its Asymmetrical Dispersion Constant Directivity horn design, also known as the “PS” Horn.

Precise matching directivity

A satisfactory audience experience often necessitates compromise between the wide, short throw coverage required by listeners closest to the stage, and the narrow, long throw coverage required by those at the back of the venue.

The asymmetrical horns in ePS speakers are engineered so that vertical coverage is narrower above the horn axis than below. Easy for the user to rotate, this ensures optimum directivity for any fixed installation.

The connection at the back of the speaker is done through two (in/out) pairs of screws terminal blocks, while the included IP cover protects the connectors from moisture in outdoor applications.

A large set of compatible accessories

On each side of the cabinet, two M6 with 80 mm pitch + one M10 fittings will connect the ePS6 to U bracket, bumper or eye-bolts.

The back of the speaker is fitted with 3x M6 with 70 mm pitch to connect wallmount in both horizontal and vertical positions.

Finally dedicated accessories exist to hang the ePS8 below the optional eLS400 or eLS600 subwoofers, leading to a discrete wideband system.

Perfect phase alignment

ePS8 acoustic phase response is NEXO phase signature allowing inter-operability between all NEXO speakers at all crossover points, except for the monitor setups where latency is minimized.
NEXO is one of the world’s leading sound reinforcement loudspeaker manufacturers. Founded in 1979, the company is dedicated to crafting practical solutions with solid engineering. Each new design begins with a proprietary sophisticated computer simulation process that allows every parameter to be extensively modeled and simulated, leading to breakthrough cost and performance gains. NEXO’s comprehensive product line includes loudspeakers, analogue and digital control electronics and amplification; all designed to deliver consistent sound quality and long term reliability for a broad range of applications.

**LIMITED WARRANTY**
NEXO loudspeakers and electronics are covered against defects in workmanship or materials for a period of five (5) years from the original date of purchase. At the option of NEXO the defective item will be repaired/ replaced with no charge for materials/labour. The item is to be adequately packaged and dispatched, pre-paid, to a NEXO authorized distributor/service centre. Unauthorised repair shall void the warranty. The NEXO warranty does not cover cosmetics or finish and does not apply to any items which in NEXO’s opinion have failed due to used abuse, accidents, modifications or any type of misuse. All images and text herein are the property of NEXO SA, and deemed accurate, although specifications are subject to change without notice.
