

Scale
Through
Modularity

From a simple ground stack to a massive stadium system. The building blocks of every system you'll ever need.

Compact. Light. Quick and easy to fly.
The cardioid system that makes sense
sonically, commercially and environmentally.

Fixed or mobile. Horizontal or vertical.
The scalable, mid-sized system that delivers
unrivalled flexibility and performance.

Ultra-compact. Highly efficient.
Consistently coherent. The ultimate listening
experience for the smaller audience.

Super-compact. Lightweight. Power and versatility, exceptional directional control, small but perfectly-formed.

PS
10

High-output, high-versatility compact.
Portable or installed applications,
the classic integrated solution.

PS
15

Compact. High output, linear response.
Vertical or horizontal. Main PA or monitor,
NEXO's best-selling system ever.
